

CT – 20 RO Filter System

“The Low Cost Alternative to Under Sink filters, Nitrate removal, PH control or Fluoride Removal Systems.”

The CT - 20:

- SIMPLE to install without using a tool. LOW cost, portable water filtration unit.
- EASY to change filters.
- DIRECTLY fits most faucets
- Each unit comes standard with a multi-stage KDF/GAC and 10 micron filtration.
- Clean white Housing
- Multi-stage **proprietary** filtration cartridge which includes replaceable pre-filter.
- Unique spacer feature allows cartridge to fit standard housings
- Can also be used with 1/4" MPT threaded candle cartridges
- Installs in minutes without tools and can be placed on any counter or table top
- Fits any faucet – Adapters included
- Swivel Long Reach Chromed Spout
- Bacteriostatic media: Prevents bacteria growth (algae, fungi)
- Improves taste, color and Eliminates odors.
- Reduces most EPA listed contaminants

The CT 20 units have the added benefit of being customized to your special needs.

- For Fluoride removal use the CT 20 Fluoride with 2500 gallon capacity
- For Nitrate removal use the CT 20 Nitrate with 1500 gallon capacity
- For Increasing the PH to 9+ use the CT 20 Increase with 2500 gallon capacity

Unit Specs:

Max. Capacity:	5,000 gal / 19,900 L
Recommended Flow:	0.5 to 1 gpm / 1.9 to 3.8 L/min
Unit Height:	12" / 30.5 cm
Unit Width:	12" x 5" in diameter
Unit Shipping Wt.:	4.3 lbs / 2.0 kg

Our systems contain a patented Bacteriostatic media, KDF® (U.S. Patent 4,642,192), which has been tested to drastically reduce or effectively remove: Chlorine, Lead, Arsenic, Barium, Cadmium, Chromium, Selenium, Mercury, Iron and other metals that may be present in the water. KDF® is listed under NSF International Standard 61 (Health effects) for water treatment plant applications.

The Coconut Shell Granular Activated Carbon is used to improve the taste, color and odor and to drastically reduce or effectively remove: Chlorine, THMs, PCBs and hundreds of other organic contaminants that may be present in the water.

Useful Life:

- Suggested replacement is one year.
