

Kwik Change Filter System

“Low Cost Alternative to Under Sink RO Systems.”

The Kwik Change:

- Low cost alternative to RO.
- No reject water (100% of the water is used).
- No pressure problems! Units work as low as 15 psi / 1 bar pressure.
- Leaves essential nutrients in water.
- Kwik-Change cartridges are removed with a single turn. It's so easy!
- No filter sumps, no mess, and no fuss!
- Cartridges have double o-rings to prevent leakage.
- Choice of cartridge types and sizes for residential, commercial and food service use.
